Interior Design Service

We offer a unique interior design service. We project manage from initial ideas through to completion. We have over forty years experience caring for people's living spaces. This experience has enabled us to build some of the best relations with a broad range of skilled craftsmen.

The pictures shown are taken from a project that spanned over 1 year and demanded our care and commitment. Heals had the privilege to undertake specialist, highly skilled work in this unique listed property.

Fireplace - Design & Installation

Consultation

In a free consultation, each client presents their personal fireplace requirements to us.

Creation

Our Creative Team at Heals work to these needed specifications to produce a suitable design for your consideration.

Final Design

Once you settle on the design, which will complement your living space, the finished design is then constructed for you. It will be built from a selection of finest natural materials and can then be fitted with our unique **starfire™** or **firestorm™** burners. Alternatively, choose from one of our large selection of fire baskets.

Installation

Following the design and build stage, your fireplace is then ready to be installed. This is carried out by our specialist in-house team.

Our unique design and installation process ensures that every client has a bespoke fireplace solution.
